

Vivint Smart Hub

Connect and control

Single system hub connecting all your smart home products.

7" HD touch display for complete system control and crisp, clear video.

Speaker and microphone for two-way talk with cameras and security monitoring.

Cellular radio and backup battery keep your system connected and power protected.

Lock and garage door controls keep your home secure.

Emergency button for live contact with Smart Home Specialists.

Vivint Smart Hub

Connect and control

Why you want it

Centralized control of your whole system, including security, locks, lights, thermostat, and cameras.

Quick and easy emergency contact with Vivint via two-way communication with Smart Home Specialists.

Seamless integration of your smart home products so that everything works together.

Chimes and voice alerts announce opened doors and pressed doorbells so you always know what's happening in your home.
